

Sample of Published Research on the Leopold Memorial Reserve and Surrounding Region, 1982-2005

- Brittingham, M.C. and S.A. Temple. (1988). Impacts of supplemental feeding on survival rates of black-capped chickadees. *Ecology* 69(3): 581-589.
- Burgi, M. and M.G. Turner. (2002). Factors and processes shaping land cover and land cover changes along the Wisconsin River. *Ecosystems* 5(2): 184-201.
- Cates, R.L. and D.R. Keeney. (1987). Nitrous oxide emission from native and reestablished prairies in southern Wisconsin. *American Midland Naturalist* 117(1): 35-42.
- Dixon, M.D. (2003). Effects of flow pattern on riparian seedling recruitment on sandbars in the Wisconsin River, Wisconsin, USA. *Wetlands* 23(1): 125-139.
- Dixon, M.D., M.G. Turner and C.F. Jin. (2002). Riparian tree seedling distribution on Wisconsin River sandbars: Controls at different spatial scales. *Ecological Monographs* 72(4): 465-485.
- Doyle, M. W., E. H. Stanley, and J. M. Harbor. (2003). Channel adjustments following two dam removals in Wisconsin. *Water Resources Research* 39(1): 1011-1027.
- Dykstra, C.R. and W.H. Karasov. (1992). Changes in gut structure and function of house wrens (*Troglodytes aedon*) in response to increased energy demands. *Physiological Zoology* 65(2): 422-442.
- Forshay, K.J. and E.H. Stanley. (2005). Rapid nitrate loss and denitrification in a temperate river floodplain. *Biogeochemistry* 75(1): 43-64.
- Freeman, R.E., E.H. Stanley, and M.G. Turner. (2003). Landscape change in the Wisconsin River floodplain, USA. *Ecological Applications* 13: 416-431.
- Freeman, R.E. and R.O. Ray. (2001). Landscape ecology practice by small scale river conservation groups. *Landscape and Urban Planning* 56(3-4): 171-184.
- Gergel, S.E. (2002). Cumulative impact of levees and dams on floodplain ponds: A neutral-terrain terrain model approach. *Ecological Applications* 12(6): 1740-1754.
- Gergel, S.E., S.R. Carpenter, and E.H. Stanley. (2005). Do dams and levees impact nitrogen cycling? Simulating the effects of flood alterations on floodplain denitrification. *Global Change Biology* 11:1352-1367.
- Gergel, S.E., M.D. Dixon and M.G. Turner. (2002). Effects of altered disturbance regimes: Levees, floods and floodplain vegetation on the Wisconsin River. *Ecological Applications* 12(6): 1755-1770.
- Gergel, S.E., M.G. Turner, J.R. Miller, E.H. Stanley, and J.M. Melack. (2002). Landscape indicators of human impacts to riverine systems. *Aquatic Sciences* 64: 118-128.

- Gergel, S.E., M.G. Turner and T.K. Kratz, (1999). Dissolved organic carbon as an indicator of the scale of watershed influence on lakes and rivers. *Ecological Applications* 9(4): 1377-1390.
- Herrick, B.R. and F.D. Hole. (1984). Soil surface dynamics in selected prairies of the Aldo Leopold Memorial Reserve. *Transactions of the Wisconsin Academy of Sciences, Arts and Letters* 72: 145-152.
- Holtz, S.L. and E.A. Howell. (1982). Restoration of grassland in a degraded woods using the management techniques of cutting and burning, in Brewer, R., ed. *Proceedings of the Eighth North American Prairie Conference*. (1983).
- Karasov, W.H., L.R. Han, and J.C. Munger. (1988). Measurement of $2\text{H}_2\text{O}$ by infra-red absorbance in doubly labeled H_2O studies of energy expenditure. *American Journal of Physiology – Regulatory, Integrative and Comparative Physiology* 255:174-177.
- Knight, R. and S. Temple. (1986). Why does intensity of avian nest defense increase during the nesting cycle? *Auk* 103:318-327.
- . (1986). Nest defense in the American goldfinch. *Animal Behaviour* 34(3): 887-897.
- Liegel, K. (1988). Land Use and Vegetational Change on the Aldo Leopold Memorial Reserve." *Transactions of the Wisconsin Academy of Sciences, Arts, and Letters* 76: 47–68.
- Munger, J.C. and W.H. Karasov. (1991). Sublethal parasites in white-footed mice: Impact on survival and reproduction. *Canadian Journal of Zoology* 69: 398-404.
- . (1994). Costs of bot fly infection in white-footed mice: energy and mass flow. *Canadian Journal of Zoology* 72: 166-173.
- Nielsen, S.E., Kirchbaum, C.D., and A. Haney. (2003). Restoration of Midwest oak barrens: Structural manipulation or process-only? *Conservation Ecology* 7(2): 10.
- Predick, K.I., S.E. Gergel and M.G. Turner. (2005). Effect of flood regime on tree growth in the floodplain and surrounding uplands of the Wisconsin River. *River Research and Applications* 25(3): 283-296.
- Skagen, S.K. (1987). Hatching asynchrony in American goldfinches: An experimental study. *Ecology* 68(6): 1747-1759.
- Turner, M.G., S.E. Gergel, M.D. Dixon, and J.R. Miller. (2005). Distribution and abundance of trees in floodplain forests of the Wisconsin River: Environmental influences at different scales. *Journal of Vegetation Science* 15: 729-738.
- Winkler, M.G. (1985). Effect of climate on development of two sphagnum bogs in south-central Wisconsin. *Ecology* 69(4): 1032-1043.
